

Fountain of Youth

by Michael Pickford

Hello dear friends. I'm Mike Pickford, preacher for the Southside church of Christ in Smyrna, TN, and this is your Moment of Truth.

People have traveled great distances and dispensed great amounts of money in order to partake of the so-called "fountain of youth." All of this is done so that they may find perfect health again, or possibly even escape the cold, clammy hands of the dreaded reaper. In reality, there is a fountain of youth, that is, there is a remedy to death. Surprisingly, this fountain is very inexpensive and one doesn't have to travel far to obtain it. We sometimes sing a song that speaks of this fountain, "There's a fountain free tis for you and me: Let us haste oh haste to the brink." This fountain is found in Christ and is accessed through obedience to the word of God (Heb. 5:8, 9). Christ's precious blood served up by the grace and love of the Father is the fountain of eternal life. It is vain to search for any other cure for sin and death. One need only come to the Lord on His terms. So, what are you waiting on? Drink up!
